

Minimum System Requirements for Mac OS X

In order to run **Exemplify with ExamID and ExamMonitor** for the online, remotely-proctored Admissions Assessment, the following are the Minimum System Requirements for your laptop/computer:

- Supported Operating Systems: OS X 10.13 (High Sierra), OS X 10.14 (Mojave), macOS Catalina (10.15)
- Only genuine versions of Mac Operating Systems are supported.
- MacOS Catalina (version 10.15) is only compatible with Exemplify version 2.0.6 or higher (Released on 10/14/19 or later)
- The English (United States) Language Pack must be installed
- CPU Processor: Intel processor
- RAM: 4GB required; 8GB or higher recommended
- Hard Drive: 2GB or higher available space.
- Screen Resolution should be at least 1024x768 or higher.
- Exemplify version 2.3.2 or greater
- Webcam (no virtual cameras or phones as cameras)
- Microphone (no headphones, no virtual mics)
- Internet: 2Mbps upload speed
- For technical troubleshooting, account passwords, including device passwords, may be required.
- Internet connection for Download, Registration, Exam Download and Upload.
- Administrator level account permissions on your computer ([Instructions](#))
- For those testing onsite and needing support, a working USB port is required (Newer devices may require an adaptor)

Items **NOT SUPPORTED** include:

- Server version of Mac OS X is not supported
- This software cannot be used on virtual operating systems such as Microsoft's Virtual Machine, Parallels, VMware, VMware Fusion or any other virtual environments
- Exemplify cannot be run within virtualized environments or environments that require persistent network (local or otherwise) connections during secure exams. This includes, but is not limited to, VMWare, Parallels, Citrix workspace, Virtual Disks, Streamed images, etc.
- You may not use any virtual camera software with ExamID or ExamMonitor.
- iPads cannot be used with ExamID or ExamMonitor and are not compatible for an online, remotely-proctored assessment.
